GIVI

WE ARE WHOLEHEARTEDLY COMMITTED TO INSPIRING PEOPLE TO EMBRACE
A MORE SUSTAINABLE LIFESTYLE: THE STYLE OF THE ELECTRIC MOBILITY.

Dear Customer,
Two-wheeled electric mobility is evolving rapidly, continuously transforming and growing on a global scale. Following the evolution in consumer demand, stemming from the spread of electric vehicles and new trends, we are introducing new and important job opportunities for everyone.

At GIVI, we understand that we need to make dedicated tools available to you to stay up to date with the new special accessories that we are developing for electric vehicles and the offer of universal accessories with adaptable function, size and design.

With our new approach to electric mobility and the new generation of riders, we are adding some new sales tools to the current ones:

:

PRICE LIST - Section with items developed specifically for electric vehicles **PAG. 227**

WEBSITE - “Electric Attitude” area can be reached from the homepage

WEBSITE - “Your Motorcycle” section divided into petrol and electric

WEBSITE - Vehicle Configurator divided into petrol and electric

CATALOGUE - New, inspirational format dedicated to the new generation of motorcycle riders

GIVI in the world

THE COMPANY

The Company GIVI was founded in 1978 by an intuition of Giuseppe Visenzi, a talented rider during the sixties in several World Championship categories, and very soon it became a leading company in the sector of motorcycle accessories.

In a very short space of time, the success of its products crossed both national and international boundaries thanks to the passion and the enterprising ability of its founder who was assisted with great care and determination by a team that has been continually able to think of and realise new products. The constant research carried out with the aim of developing materials and the use of new production technologies has been particularly decisive.

The result is now a range of accessories that are not only accessories, but proper accompaniments to motorcycles, efficient, technologically advanced

and always with a new and winning design. GIVI, whose production facilities and Headquarters are located in Flero, in the industrial heartland of Brescia, is now able to offer its products in more than 50 Countries, with direct branches in France, UK, Spain, Germany, Tunisia, USA, Brazil, Malaysia, Cina, Vietnam and Indonesia. This widespread diffusion makes it possible to satisfy the needs of every motorcyclist everywhere in the world.

GIVI boasts a production site that covers an area of over 30,000 sq mtrs, with a staff count of more than 150 employees, that take great care in all phases of production, from research / product planning to distribution, and having the ability to make use of the most modern technologies available, in order to achieve production responding to market requests characterized by a high technological content.

MADE IN ITALY

GIVI placed all manufacturing units and the main logistic warehouse within a few kilometers radius from the Headquarters in Flero (Brescia). A total of more than 150 trained employees work here, setting up and monitoring the work of advanced tools and production machinery.

GIVI is a strong believer in automation. It's our highly skilled technicians who ultimately refine, assemble, polish and check the coupling of each and every product, ensuring optimum quality.

Today just a few Italian companies are structured to follow the true concept of bringing "Made in Italy" quality to the international market; GIVI is among those.

THE R&D DEPARTMENT

The need for a technical office has been a GIVI priority since the very beginning. The decision to turn it into a fully independent R&D Department was finalized when the company entered the motorcycle helmet sector as a manufacturer. The R&D Department is the pride of GIVI: inside its offices a full team of technicians, designers and engineers follow new projects through every single stage.

A second, smaller but fully equipped R&D Department works on the projects aimed toward the South Asian market. This unit is located inside the manufacturing unit of GIVI Malaysia, however all the main ideas and innovations fielded mostly during the last 10 years by the brand, were born in Flero. This is a very important area composing of a light and airy, open "thinking" space, and a helmet testing lab.

MANUFACTURING

The manufacturing and plastic injection centre is also located in the city of Flero. Here the polymers, the raw material used to manufacture the hard side and top cases, are blended to GIVI's specifications. After strict quality control they are conveyed to the automated injection press line. The unfinished products are then processed by anthropomorphic robots that complete the main assembly stages. In a nearby area the latest generation CNC mills cut the molds. In the final stage, all the molds are manually checked to assure the perfect alignment of their components.

All metal parts are manufactured in the metal works facility, also located in Flero. CNC mills cut, bend, weld and machine the metal with the highest precision. Every single piece composing our motorcycle fitting kits for side and top cases comes from this facility. The laser cutting of the metal sheets allows absolute dimensional precision, within a 0.1 mm tolerance.

QUALITY CONTROL

One of our strongest assets is the pursuit of a quality standard that can greatly elevate the riding comfort and safety of motorcyclists.

This is GIVI's mission. A commitment made possible by teamwork, based on responsible product development and great respect for the end user.

GIVI employs the best available technology to offer ease of use, safety and emotional involvement, turning the brand into a lifestyle. Composite techno fibres, exclusive techno polymers, complex molds, high precision machinery and injection processes, strict quality controls, products, shapes, details and ever new destinations of use testify the total dedication of the brand to the consumers' needs.

HARD BAGS

TOP-CASES

MONOKEY® SYSTEM

Monokey®, patented by GIVI, is the most widespread fitting system for hard cases and side cases. Simple to use, Simple to use, it allows the opening of the top case lid and the detachment of the case from the fitting plate with just one key. All the Monokey® products combine the best characteristics of mechanical resistance and rigidity of the fitting, with features including compact and light components. The even distribution of the load on the plate surface is guaranteed by the three fitting points. The damping of oscillation and vibration and the contact between the bottom shell and the plate are assured by four spacers made of elastic material, which is particularly resistant to extreme weather and temperature variation. Thanks to these solutions a high level of reliability of the fitting is guaranteed.

MONOLOCK® SYSTEM

In order to offer a wider range of applications and uses, GIVI has introduced Monolock®. Following the same philosophy that defines the Monokey® fitting system; this second solution is mostly made for lighter vehicles, such as scooters and maxi-scooters. Even with limitations of maximum load, this system of fitting combines performances comparable to those of the Monokey® system with components boasting lighter and far smaller dimensional restrictions. Because of its natural compatibility with different kinds of motorcycles, it is appreciated by the most important brands of motorcycle producers, who have adopted it for their original accessories. As well as for Monokey®, the opening of the case top shell and the detachment of the case from the plate are operated with just one key.

SIDE CASES

MONOKEY® SIDE SYSTEM

Introduced to the market in 2006, the Monokey® Side attaches onto the side of the above-mentioned two fitting systems, and thereby introducing different fitting solutions for the motorcyclist. Patented by GIVI, Monokey® Side represents an interesting evolution of the classic system constituted by the "fitment Kit plus the side-bag". The new solution introduces new advanced technical features and some other points of interest: the cases that adopt Monokey® Side can be recognized by the shaped profile of the base and by the addition of two new fixing points, composed by "sleds". The latter receive the disengagement movement from the case release button and determine a significant and further increase in overall stability. Monokey® Side allows greater adhesion of the case to the side of the motorcycle, improving the aerodynamic aspect. The motorcyclist's habits won't change, since it will continue to open/close and attach/detach the case equipped with Monokey® Side with one key and push button.

MONOKEY® CAM-SIDE SYSTEM

The Trekker Outback are cases especially created for off-road use. To support all the demands of off-road travel, a fitting system and side-case holders stronger than standard Monokey are required. For this reason, the new Monokey Cam-Side system has been developed which fixes the case in four different points whilst at the same time maintaining the possibility to be released quickly from the rack. The specific side-case holders are the PL__CAM and PLR__CAM that are manufactured using tubular steel with an 18 mm diameter, and are fixed to the bike in different points, in order to strengthen the structure. Besides the panel of the frame where the case is linked, it is better if the rubber support points are moved in the perimetric zones of the case.

PLO___

Tubular with 18mm diameter

The PL ONE-FIT will exist exclusively as a complete code, specific for each model of motorcycle, already configured with the suitable fixing system for the chosen case model.

PLO___ MK
MONOKEY®
configuration

TREKKER ALASKA / TREKKER 46/35/33
TREKKER DOLOMITI 30 - E360 - E460
E22 - WL900 - GRT709 - GRT720

PLO___ CAM
MONOKEY® CAM-SIDE
configuration

TREKKER OUTBACK 37 e 48 - GRT709

PL / PLX

Tubular with 16mm diameter

The classic frames PL_ (Monokey) and PLX_ (Monokey Side) can be configured as RAPID RELEASE (PLR_ or PLXR_) with the addition of an RKIT. Pre-configured R-frames will no longer exist

The PL ONE-FIT in some cases can be configured as RAPID RELEASE with the addition of an RKIT.

Each configuration will be specific for each motorcycle model, because some frames will not be convertible to Rapid Release.

PLO___ MK
+ O_RKIT
MONOKEY® RAPID RELEASE configuration

PLO___ CAM
+ O_RKIT
MONOKEY® CAM-SIDE RAPID RELEASE configuration

PL_ + O_RKIT
MONOKEY®
RAPID RELEASE configuration

PLX_ + O_RKIT
MONOKEY® SIDE
RAPID RELEASE configuration

For some motorcycle models, the PL ONE-FIT RAPID RELEASE will exist as a frame already configured (PLOR_MK or PLOR_CAM), without having to add the RKIT

Some frames will not be convertible in Rapid Release.

EACH CONFIGURATION WILL, IN ANY CASE, BE SPECIFIC FOR EVERY MODEL OF MOTORCYCLE

RICAMBI

OFMK
MONOKEY®
configuration

OFCAM
MONOKEY® CAM-SIDE
configuration

A customer who has purchased a PLO_MK chassis, in case of a future purchase of a Monokey Cam-Side case, will have the possibility to buy the OFCAM kit for the conversion of the fixing system, without having to buy a new frame. Vice versa, to transform a PLO_CAM frame into Monokey, just the OFMK spare part kit will be needed

Additional cargo bag Dry bag, 18 ltr

Designed by GIVI as additional load, it can be fixed on the Canyon-Base GRT721, in addition to the side bags GRT720 or be fixed on the 40 ltr cargo bag GRT712.

The Dry bag allows you to modulate the configuration of the luggage to suit your equipment needs, it can be fixed on the rear racks or on the aluminium suitcases, to offer additional load for longer and more demanding motorcycle journeys.

As standard:

- Waterproof Roll Top closure system
- Possibility of fixing to other bags by means of system M.O.L.L.E.

Info

EXTRA CARGO T515

Roll-top bag with tool compartment and hook (compatible with M.O.L.L.E.). Suitable to be placed inside the S250 TOOLBOX.

Features:

- Main inner net pocket with zipper closure
- Variety of elasticated straps
- Mounts to hold a variety of tools
- Reflective print for increased visibility
- Compatible with side bags GRT709 which can be hooked directly to the chassis frame (compatible with M.O.L.L.E.)
- Hook to hang the bag when open

Info

EXTRA CARGO T516

Universal handlebar pouch with inner mobile phone compartment.

Features:

- Inner mesh pocket with zipper closure
- Elasticated mounts for pens / tools
- Magnetic closure
- Reflective print for increased visibility
- Detachable, adjustable waist belt for attachment around the waist

Fastening system:

- 2 side straps with double D ring and strap with hook and loop fastening on the base

**Info****EXTRA CARGO T517**

Water resistant leg bag

Features:

- Reflective print for increased visibility
- Front pocket
- Adjustable waist straps
- Elasticated and adjustable leg straps

**Info**

COMPLEMENTI PER BORSE SOFFICI

SICUREZZA E COMFORT **T523**

HydraPak Givi Elite, 2-ltr water bag.

This bag can be used in rucksacks with an opening for the drinking tube and is particularly suitable for use Off-Road.

Compatible with GRT711, included in the GRT719

As standard:

- Opens and closes with a SLIDE SEAL TOP, making it easy to fill and creating a watertight seal.
- BLASTER valve prevents leaking.
- Compatible with most hydration packs, drinking tube length - 95 cm;
- PLUG-N-PLAY connection system to easily detach the tube when the bag is full;
- Completely reversible for easy cleaning;
- Withstands temperatures from -25 up to 60 degrees.

SUPPORTI PER DISPOSITIVI MOBILI **S111 POWER HUB**

Hub kit for the electrical feed for tank bags. It supplies three devices through the USB ports and a fourth device with the ISO 12V Inner Power connector.

Fully waterproof external wiring kit. It allows the charging of three devices with USB ports for a total of 6600 mA (3 x 2200 mA). It is possible to use original USB cables from devices without purchasing further adapters. To be specifically combined with the S110 kit

OPTIONAL

S110 12V Handlebar electrical outlet socket.

SOFT BAGS
COMPLEMENTS**T460B**

The TFS System has been created to simplify the fixing of tank bags onto plastic tanks that, unlike metal ones, cannot be used with a magnetic fitting system.

It is based on a laminated EVA polyester foil covered with anti-slip PVC which, once it is attached to the bike by using the 4 adjustable belts, is the base to quickly fasten and unfasten the bag to the bike.

The TSF measurements means it is usable for most motorcycle models and the system allows the fastening of all tank bags in our range, with the exclusion of TANKLOCK bags

SOFT BAGS
COMPLEMENTS**S430 - SEATLOCK**

Base with universal retaining system to be used with a Tanklock bag or a TanklockED bag on the passenger portion of the seat.

The new GIVI Seatlock is designed to integrate and function even with the most extreme sport motorcycles.

The base SEATLOCK is equipped with the TANKLOCK quick release system and it is adaptable to any motorcycle. It can be put on and taken off in less than 5 minutes, without using any tools.

It is compatible with most GIVI TANKLOCK and TanklockED system bags with a flat base, but not with those with a contoured/curved base.

As standard:

- Anti-scratch and non-slip rubber base
- Fast and easy retaining system with adjustable straps
- Can also be secured to GIVI M8A, M8B, M9A, and M9B aluminium plates

**FITTING SOLUTIONS FOR SOFT BAGS****SADDLE BAGS****REMOVE-X - SOFT BAGS - Easy-T Range**

TR_ _ _

The world of fixing systems developed by GIVI for its bags and cases expands with the important new REMOVE-X line. These frames, distinguished by their TR lettering, are tasked with stabilising the positioning of soft side bags on the motorcycle but can also be completely released from the vehicle at the touch of a lever.

The "aesthetic" upgrade introduced with REMOVE-X will be appreciated by many, but particularly by those users who seek light load solutions that allow the motorcycle to be rapidly returned to its original aesthetic... or almost, as a small black nylon fixing system will remain assembled in the area occupied by the footpeg supports.

The TR sub-frames are suitable for all types of soft side bag that are fastened to the vehicle using under-seat straps, but GIVI recommends opting for models of a shape and size to suit the style of one's motorcycle, taking care to maintain the correct distance from the exhaust and gas outlet.

ST609 - Sport-T Range

TE_ _ _ _

TUBULAR HOLDER

(IT CAN ALSO BE USED AS HOLDER FOR SOFT LUGGAGE)

Insert the key into the lock and turn it, locate the bag onto the TE specific frame so that the two tabs positioned on the lower section of the attachment system hold onto the base of the bag; then push the bag onto the frame to attach it. To remove the key, rotate it in a vertical position.

For prices of motorcycle specific items, (TE_ _ _) please refer to the section "SPECIFIC EQUIPMENT FOR BIKES AND SCOOTERS".

SADDLE BAGS

T_ _ _ _

TUBULAR HOLDER

In order to attach universal soft side bags in a safe and secure way, GIVI has created and produced stabilising holders for various motorcycle models. The mounting of these side holders enables bags to be attached in such a way so as to avoid damage due to the proximity of the exhaust pipe when the bags are mounted.

For prices of motorcycle specific items, (T_ _ _ _) please refer to the section "SPECIFIC EQUIPMENT FOR BIKES AND SCOOTERS".

In the event that there is no specific tubular holder for your model of motorcycle on which you can mount the soft side bags of your choice, we suggest mounting the bags directly onto the motorcycle, obviously ensuring that the bags are securely attached and that they do not come into contact with the exhaust pipe, rear wheel and do not cause any interference with any other moving part of the motorcycle.

TANK BAGS

BELTS INCLUDED - ALL TANK BAGS ARE SUPPLIED WITH 4 BELTS

- Bind the included belts onto the frame of the motorcycle
- Attach the other end of the belts to the D-rings on the base of the bag

MAGNETS INCLUDED

- Some models of bags are equipped with magnets to allow mounting on metal tanks.

TFS (TANK FITTING SYSTEM) - Universal base for tank bags

T460B

The TFS system has been created by GIVI to simplify the fixing of tank bags onto plastic tanks that, unlike metal ones, cannot accommodate a magnetic fitting system. It is based on a laminated EVA polyester foil, covered with anti-slip PVC which, once it is attached to the motorcycle using the four adjustable belts, is the base to which the bag can be quickly fastened and unfastened. The TFS measurements (see table below) means it can be used on most makes of motorcycle and the system allows the fastening of all tank bags in our range, with the exclusion of our Tanklock bags.

- Attach the TFS (Tank Fitting System) on the frame of the motorcycle, using the 4 adjustable belts included
- Attach the bag onto the TFS base using the belts included

TANK BAG FOR ENDURO BIKES WITH SPECIFIC BASE INCLUDED: EA110B and EA116

< **EA142 / EA110B** - Tank bag for the following Enduro motorcycles with specific base included

> **EA141 / EA116** - Tank bag with specific base included for HONDA NC 750 X (16 > 19)

Can be used on other makes / models of motorcycles, simply check compatibility of the base of your fuel tank with the dimensions shown opposite or use the straps provided.

TANKLOCK SYSTEM

TANKLOCK TANK BAGS – Tanklock System

BF__

Mount the specific BF__ kit to the fuel filler cap and fit the tanklock bag by positioning it on the flange using a slight amount of pressure. To release the bag, simply pull the red lever positioned on the base of the bag. Flanges do vary, therefore you must check the compatibility list contained within the section “specific equipment for bikes and scooters”.

Tanklock tank bag 20 ltr

XS319 Tanklock

Tanklock tank bag 3 ltr

XS320 Tanklock

Tanklock tank bag 15 lt: Honda CRF1000L Africa Twin (16>19) e Sport Adventure (18>19)/ Kawasaki Versys 650 (15>19)

ACCESSORIES

The collection of GIVI products includes a wide variety of accessories that have all been designed with the purpose of helping to improve security, practicality and comfort whilst riding on two-wheels. Some products are dedicated to the rider, some to the passenger and some to the conveyance itself but each one is a worthy addition to our range.

For example, from the child's seat which is very useful around town; the universal satnav / smartphone holder or the telepass holder, easily adaptable to two or three wheeled machines; the very useful specific backrests that are mounted behind the seat right down to the breakdown kit including a warning triangle and reflective vest.

Over the years, our selection of accessories has been continually expanding taking into consideration the needs of today's motorcyclists and scooter riders. In respect of the two-wheeled machines themselves, we produce a wide range of accessories including engine bars which limit the damage in the event of a fall. Dedicated to the world of "off road" riding, we have introduced the brand new oil carter protectors which provide protection against impact from rocks and bumps on the road and there are the new universal halogen spotlights.

There is also a motorcycle cover and a seat cover to provide protection from dust and rain, an aluminium case holder, tubeless tyre repair kit, the list goes on and on. Behind every single GIVI accessory is the dedicated and targeted research of the R&D Department based at Flero.

SUPPORT PER DISPOSITIVI MOBILI **S954B / S955B / S957B / S958B**

Universal GPS-Smartphone holder. Equipped with safety strap and raincover. touch sensitive surface transparent, sunshade, opening at the bottom to allow the device power supply, zip closure with waterproof flap. Compatible with GIVI power connection

- S954B** Universal GPS-Smartphone holder with fitting kit.
- S955B ▲** Universal Smartphone holder with fitting kit.
- S957B** Universal Smartphone holder with fitting kit.
- S958B** Universal Smartphone holder with fitting kit.
- S951KIT2** Universal fitting kit for S95_, S95_B to fit on motorcycles fitted with handlebar risers
- S110** 12V Handlebar electrical outlet socket
- FB_ _ *** Fairing upper bracket to be mounted behind the windshield to install S902A, S920M, S920L, S95KIT and GPS-Smartphone holder

*Please refer to the section "specific equipment for bikes and scooters" to verify compatibility

DIMENSIONS PORTA GPS/SMARTPHONE:

SUPPORTS FOR MOBILE DEVICES **S902A**

Universal anodised aluminium support for STTR40SM, SGZ39SM, S95_B to be mounted onto steel tubes with a diameter of between 11.5mm and 14 mm. To be mounted on motorcycles with a cross piece located behind the windshield with a diameter between 11.5mm and 14mm, or on the upper fairing brackets FB_ _ _.

- S902A ▲** Universal anodised aluminium support to install GPS and smartphone holders S953B, S954B, S955B, S956B, S957B, S958B and GPS holders SGZ39SM and STTR40SM
- SGZ39SM** Anodised aluminium and stainless steel handle bar to install GPS Garmin Zumo (345LM, 346LM, 390LM, 395LM, 396LM, 590LM, 595LM, 220, 350, 400, 450, 550, 340, 660, 345, 395, 595) on S901A Smart Mount and S902A
- STTR40SM** Aluminium support to install GPS Tom Tom Rider (40, 400, 410, 450, II, 500, 550) on S901A Smart Mount and S902A
- FB_ _ *** Fairing upper bracket to be mounted behind the windshield to install S902A, S920M, S920L, S95KIT and GPS-Smartphone holder

*Please refer to the section "specific equipment for bikes and scooters" to verify compatibility

SUPPORTS FOR MOBILE DEVICES **S904B SMART MOUNT_RC**

Universal support in aluminium, with central support in reinforced technopolymer, to mount the device holders S95_B, S604 on the on the brake/clutch oil reservoir. DESIGNED AND MADE IN ITALY. Features:

- The base adapts to the different shapes of brake/clutch oil reservoirs on the market.
- It can be rotated and turned upside down as needed.
- Through the pulling of a single side screw the customer can rotate the support on the vertical axis and manage the spherical movement of the upper support.
- Painted steel base
- Solid turned base in anodised aluminium.
- Cheeks in treated die-cast aluminium.
- Central support in reinforced technopolymer with double injection

- S904B** Universal support in aluminium, with central support in reinforced technopolymer, to mount the device holders S95_B, S604 on the on the brake/clutch oil reservoir.
- 01VKIT** Specific kit to mount the Smart Mount RC
- 02VKIT** Specific kit to mount the Smart Mount RC
- 03VKIT** Specific kit to mount the Smart Mount RC

You can fit > **S95_B** GPS-SMARTPHONE HOLDER

You can fit > **S604** UNIVERSAL CASE FOR PAYMENT DEVICES

COMPATIBILITY LIST _ _ VKIT

Please refer to the section "specific equipment for bikes and scooters" to identify the correct item for your motorcycle, or scan the QR Code on the side to see the compatibility list.

SUPPORTS FOR
MOBILE DEVICES

S920M SMART CLIP

Universal smartphone holder pliers. A patented product that has been designed and made in Italy. Compatible with motorcycles, scooters, bicycles, quad and snowmobiles. Made from materials with high chemical and mechanical resistance: metal parts constructed from stainless steel and anodised aluminium. Techno-polymer plastic elements moulded with a techno-elastomer. Compatible with diameters between 8mm and 35 mm. Ability to fit around sections that are not perfectly circular and with a maximum diameter of 37mm. Designed to avoid interference with the camera on most smartphones. Easy lock and release of the device. All components remain attached to each other, even after being removed from the vehicle. Also included is a "GRIP+" elasticated safety strap.

The S920M can accommodate devices with the following dimensions: minimum: 112 x 52mm, maximum: 148 x 75mm, maximum thickness: 13 mm.

SUPPORTS FOR
MOBILE DEVICES

S921

Universal smartphone/satnav clip for motorcycles, mopeds, bikes, scooters and quads. For devices 52 to 85 mm wide.

S921 works with most smartphones 52 to 85 mm wide. The clip is designed for recording on the go, leaving the camera unobstructed.

High-quality materials ensure durability and non-slip rubber on the area in contact with the device provides extra grip.

S921 Easy Clip can be paired with GIVI holder systems as required: S901A, S902A or S95KIT.

An additional webbed safety strap is included with the product for riding on bumpy terrain.

MOBILE DEVICES

S604

Universal case for European highway toll payment devices entirely MADE IN ITALY and equipped with a universal kit for fastening onto handlebars, crossbars and mirrors.

The fitting system, made from technopolymers and stainless steel. It is compatible with tubes between 8 and 35 mm in diameter and can attach to sections that are not perfectly round.

The S604 was designed to accommodate: the Italian TELEPASS* in its new size (66 x 48 x 28 mm) or the more compact devices used to pay European motorway tolls (63 x 11 x 40 mm; distributed in Italy, France, and Spain), this format is held in the case through the use of an adhesive pad that compensates for the different sizes compared to the Italian format (included in the package).

PLEASE NOTE: This holder has been developed for the devices used to pay European motorway tolls (distributed in Italy, France, and Spain) and for the Italian TELEPASS*. It is important to always check the dimensions and functionality with respect to devices available in other countries.

**SPOTLIGHTS****S310 TREKKER LIGHTS**

Additional universal headlights, homologated, which can be easily mounted onto any engine guards with a tubular diameter between 21mm and 25mm.

The cable kit with the relay and the fuse for direct linking to the battery are provided as standard, together with a waterproof switch that can be mounted to the handlebar. Also provided as standard, is a cable which can connect the lights to the ignition which ensures the lights are not left turned on.

S310

Additional halogen spotlights

Z2256

Pair of halogen bulbs replacement 12V 55W H3 for spotlights S310

Z2257

Pair of halogen bulbs replacement 12V 35W H3 for spotlights S310

**SPOTLIGHTS****S322 LED PROJECTORS**

Pair of universal, certified anti-fog lights, with black painted aluminium housing and LED technology that guarantees low energy consumption, making the S322 suitable for mounting on motorcycles with small engines, without the risk of draining the battery. Easily attached to all engine-guards with a tubular diameter of between 21mm and 25mm. Supplied with fuse and cables for direct connection to the battery and with a waterproof switch to mount on the handlebar. Also supplied with a third cable to connect to the motorcycle ignition lock. Only 14 W power absorption per light

S322

Pair of universal, certified anti-fog lights, with LED technology and black painted aluminium housing

SAFETY AND COMFORT E198

- Inner courtesy light for cases.
- Lights up automatically when the lid is opened.
 - Can also be used as an emergency flashlight
 - Including battery charging cable

E198 | Inner courtesy light for cases

SAFETY AND COMFORT S510 D-CHARGE

- S510 - Motorcycle battery maintainer. Compatible with all types of traditional 12V battery (lead-acid, MF, GEL AGM) and latest-generation lithium 12V batteries with either lithium ion technology or LiFePO4, from 1.2 Ah up to 100 Ah.
- Increases battery duration by up to four times. MAXIMUM EFFICIENCY, minimum energy consumption
 - 2 PROGRAMMES: Lead-acid & lithium, max. charge current: 1 Amp
 - SAFE. No spark. Protection against: reverse polarity, short circuits, overloading and overheating.
 - For lithium batteries: 100% AUTOMATIC charge and maintenance algorithm WITH 7 INTELLIGENT CYCLES: initialisation, recovery (from 1.25V), light charge, main charge, analysis, maintenance and equalisation.
 - For lead-acid batteries 100% AUTOMATIC charge and maintenance algorithm WITH 8 INTELLIGENT CYCLES: initialisation, recovery (from 1.25V), light charge, main charge, desulphation, analysis, maintenance and equalisation.
 - Equipped with an integrated temperature sensor, it allows for the activation of a specific "Polar" mode for charging at low temperatures.
 - 100% Made in Italy, 3-year warranty.

S510 | Battery charger / Battery maintainer for motorcycle

SAFETY AND COMFORT STF500S

Stainless-steel thermal flask 500ml. It keeps water hot or cold for up to 12 hours. Anodised aluminium snap-hook. BPA free. Double wall, max liquid temperature 100 ° C, dishwasher safe, compatible with most bottle holders.

- | | |
|----------------|---|
| STF500S | Stainless-steel thermal flask, 500ml |
| E162 | Support in stainless steel for thermal flask. Compatible with OBK110A / OBK58 / OBK42 / OBK48 / OBK37 / OBKN58 / OBKN42 / OBKN48 / OBKN37 TREKKER OUTBACK, DLM30 / DLM36 / DLM46 TREKKER DOLOMITI and TRK33 / TRK46 TREKKER |
| E199 | Support in fibreglass reinforced nylon for thermal flask |

SAFETY AND COMFORT **VEST02 TREKKER VEST**

A high visibility vest certified in accordance with EN 1150:1999 Regulations. It combines a fluorescent yellow surface with reflective strips both at the front and rear zones. This vest is well suited to fit over various types of jacket. Hook & loop adjustment straps on the waist, side pockets with zippers. Breathable, high visibility yellow fabric. Customizable, clear and removable rear pocket: it can hold a copy of the license plate when riding off-road, or the logo of a motorcycle rally or event. Regulation EN1150 verifies the properties of high visibility clothing as being suitable for non-professional use only. Available sizes: S/M - L/XL - XXL/XXXL

VEST02 — High visibility outer vest, with EN 1150:1999 approved.

SAFETY AND COMFORT **S220**

Padlock with a retractable steel cable. Can be used to fasten together helmets using the ring on the chin guard, or to fasten together technical garments using the loop on the clothing.

S220 — Padlock with retractable wire and combination lock

SAFETY AND COMFORT **S221**

Unlike hard cases, soft bags do not have a lock and because of this, when reaching your destination, it is suggested that soft bags are removed from a motorcycle. As we understand that this can be frustrating, the Givi S221 wire padlock can be used to secure soft bags to a motorcycle. It locks the zip and blocks it, ensuring the bag is locked to either the handlebar or the rear rack

S221 — Wire padlock for soft bags, with combination lock.

SAFETY AND COMFORT S301 FIRST AID KIT

A First Aid Kit which fits into a practical little red case. Due to its colour, the case can be easily located either in a top-case or under a seat. Inside, you will find all you need should First Aid be required. Homologated (DIN13167 Law). The road laws of some Countries state that a rider is obliged to carry a First Aid Kit on board their motorcycle. This Kit is useful in any situation that may be encountered whilst travelling either by motorcycle, car or bicycle and for those who practice sport or pursue outdoor activities, it should be carried at all times.

S301 | Portable first aid kit in compliance with DIN13167

SAFETY AND COMFORT S450 TUBELESS TYRES REPAIR KIT

Tyres repair kit.
Contains: N. 3 x CO2 cans, N. 1 x Connector complete with valve, N. 1 x Flexible tube, N. 1 x Cutter, N. 5 x Sealing strips, N. 2 x Specific utensils, N. 1 x Tube of adhesive

S450 | Tubeless tyres repair kit
S450KIT | Set of three CO2 cans for the Tubeless Tyres Repair Kit (S450).

SAFETY AND COMFORT S650 BABY RIDE

Adaptable to the majority of scooter models currently available on the market, the S650 ensures children from 5 to 8 years have the correct seating position. Made in foam polyurethane (Black colour) with metal base, it is fixed using appropriate universal arms on the sides of the motorcycle. There is no seat belt which will keep the child tied to the seat (such as those present on bicycle seats) the mere presence of an adult on the front seat is enough to avoid the child moving forward.

S650 | Child's seat
S650KIT | Kit with long brackets for S650 Child's seat

Before use, verify the country legislation regarding pillion passengers and road safety
* n.4 long brackets for the mounting of S650 Child's seat on scooters

SAFETY AND COMFORT **TM418**

Hand protectors made in rain resistant polyester with an inner lining that keeps the fingers warm in all conditions. The use is universal as TM418 adapts to every type of handle-bar and rear-view mirror. The structure is rather rigid for easier and quicker accessibility of the hands. Inner lining: lambkin

TM418 | Pair of protective handle-bar gloves for motorcycles and scooters adjustable for use with fixed mirror.

SAFETY AND COMFORT **TM421**

Universal motorcycle muffs with hand-guards. Equipped with left/right fixing strap with quick-release clips, rigid insert to keep the wrist open, reflective prints. Each muff has two points to attach it to the handlebar:

1. Exterior: direct attachment to the handlebar with the use of straps and elastic bungees.
2. Interior: attachment to the hand-guard with straps (to adjust position). Materials: 1200D polyester, anti-UV compliant with ISO 4892-2 regulation - PE padding. Materials compliant with REACH regulations.

TM421 | Universal motorcycle muffs with hand-guards

EXTRA CARGO **EX2M**

Anodised aluminium bag holder to attach to M5, M7, M8A, M8B, M9A, M9B MONOKEY® plates or to M5M and M6M Monolock plates, or directly to the specific metal supports for the previously listed plates. Made in brushed anodised aluminium. Supplied with belt-strap loops. Suitable for carrying large bags up to 50 ltr in capacity. Maximum load 6 kg. Size: length 420mm x Width 300mm.

EX2M | Anodised aluminium bag holder to attach to M5, M7, M8A, M8B, M9A, M9B MONOKEY® plates or to M5M and M6M MONOLOCK® plates, or directly to the specific metal supports for the previously listed plates

S350 | Pair of Trekker Strap belts, maximum traction load 100 kg.

EXTRA CARGO **S150**

Universal small nylon rack, compatible with most GIVI MONOKEY® cases and with many other models of cases produced by the major motorcycle manufacturers. Other characteristics: 6 belt strap loops, 6 fixing points to attach the hooks of an elasticated cargo net, universal kit which, with the use of semi spheres, allows the rack to be adapted to the curves of a large number of different cases.

| | | |
|-------------|---|--|
| S150 | Universal small nylon rack | |
| T10N | Elastic cargo net, black, 1 piece | |
| T11N | Small elastic cargo net, black | |
| S351 | Pair of Trekker Strap belts, maximum traction load 75 kg. | |

EXTRA CARGO **E206**

Folding Trolley, compatible for MONOKEY® Top-cases. Equipped with "Anti-noise", replaceable padded wheels, and handle with long retractable extension.

| | | |
|-------------|--|--|
| E206 | Folding Trolley, compatible for MONOKEY® Top-cases | |
|-------------|--|--|

EXTRA CARGO **S350-S351 - TREKKER STRAPS**

S350 - Width 25 mm and length 1700 mm. Maximum traction load 100 kg.

S351 - Width 20 mm and length 1000 mm. Maximum traction load 75 kg.

| | | |
|-------------|--|--|
| S350 | Pair of Trekker Strap belts, maximum traction load 100 kg. | |
| S351 | Pair of Trekker Strap belts, maximum traction load 75 kg. | |

EXTRA CARGO S250 TOOL BOX

Tool box for motorcycles, to be mounted between the side-case holder and motorcycle fairing. Size: length 260mm x Width 90mm x Height 170mm. Inner removable divide. Made in reinforced technopolymer. Water resistant. The lid can be mounted in both directions (lock pointing upwards or downwards). Security lock key unifiable with those of GIVI cases/top-cases/bags with the same system (purchasing the SL105 kit). Screw top dust-cover on the lock. Possibility of fixing it either on the right or left side, depending on the bike's structure. The S250 Tool Box should not be fitted on motorcycles where the muffler could transmit exhaust gas to the Tool Box. This product must be coupled with the universal fitting kit S250KIT or with specific fitting kit TL____KIT.

| | |
|----------------|--|
| S250 | Tool box to be mounted between the side-case holder and motorcycle fairing. To be combined with the universal fitting kit S250KIT or with specific fitting kit TL. |
| S250KIT | Universal kit to install the S250 Tool Box on specific pannier holder PL, PLR, PL....CAM, PLR...CAM |
| T515 | Roll-top bag with tool compartment and hook (compatible with M.O.L.L.E.). Suitable to be placed inside the S250 TOOLBOX. |

* In the event that the S250 Tool Box and S250KIT are mounted on a side-case holder and compatibility has not been verified by GIVI, then before hitting the road, it is essential to check that nothing (including the Tool Box) interferes with the full range of movements of the swingarm.

EXTRA CARGO TAN01

Homologated Jerry can 2.5 ltr suitable for the transportation of fuel, water or oil

Dimensions: 170x235x95mm

| | |
|--------------|--|
| TAN01 | Homologated Jerry can 2.5 ltr suitable for the transportation of fuel, water or oil. |
| E149 | Support in stainless steel to mount the tank TAN01 on Trekker cases |
| E148 | Removable support in stainless steel to mount the tank TAN01 on Trekker Outback cases |
| E205 | Support in fiberglass reinforced nylon to mount the tank TAN01 on Outback, Dolomiti e Alaska cases |

EXTRA CARGO T10N

Elastic cargo net to secure a variety of objects to the lid of a top-case or to the luggage carrier of the motorcycle. Dimensions: 40 x 34 cm

| | |
|-------------|--|
| T10N | Elastic cargo net, black, 1 piece |
| T10 | Elastic cargo net, black, 12 pieces |
| E125 | Four ring kit to anchor T10N elastic net. The rings must be anchored to the case by making four holes of ø10mm |

EXTRA CARGO T11N

Small elastic cargo net to secure a variety of objects to the lid of a top-case or to the luggage carrier of the motorcycle.

Dimensions: 35 x 25 cm

T11N | Small elastic cargo net, black

MECHANICAL PART PROTECTION RM02

Universal spray guard, which needs to be paired with the specific fitting kit (RM_ _ _KIT), which varies according to the model of motorcycle. The fitting kit is sold separately (it is important to check that the specific fitting kit is produced for the individual motorcycle). Made of nylon and reinforced by fiberglass. Please refer to the section "specific equipment for bikes and scooters" to verify the availability of a fitting kit compatible with a specific model of motorcycle

RM02 | Universal spray guard

MECHANICAL PART PROTECTION SLD01

Frame slider made from polymer reinforced with fibreglass. This protective side buffer, manufactured entirely in Italy, features an aerodynamic design and a body which can resist repeated impacts and abrasion, as well as solvents, fuels and moisture. The SLD01_ _ boasts significant attention to detail and is noteworthy for the absence of visible bolts, a technical choice which also makes assembly and disassembly easier. Another distinctive feature is the anodised aluminium insert, available in four colours, which is laser-engraved with the GIVI logo. Refer to the MY MOTORCYCLE section to see if there is a specific item for your vehicle.

BIKE AND SEAT COVERS **S200**

Provides dust protection during the winter months.
Material: transpiring texture

S200 | Universal bike cover, not waterproof
Colour: light grey

BIKE AND SEAT COVERS **S202L-S202XL**

Waterproof bike cover. Equipped with thermo-sealed seams to ensure complete water resistance, closure at the base with straps and clips, front and rear holes to allow a chain to be passed through the wheel, elastic strap at the base to improve adherence to the vehicle.
Material: Polyester 210D Oxford, colour: black with silver print and seams in a contrasting colour.
S202L: Suitable for: small scooter, naked, sports, and classic bikes. H 125>100 x L 205 x W 70>95.
S202XL: Suitable for: maxiscooter, sport-tourer, tourer, enduro, custom. H 125>110 x L 238 x W 70>95

S202L ▲ | Motorcycle waterproof rain-cover or sport and scooters models
S202XL ▲ | Motorcycle waterproof rain-cover for big motorcycles and scooters

BIKE AND SEAT COVERS **S210**

Waterproof covering, black coloured, in order to protect the seat from rain and dust.
Produced with elasticated sides and adjustable fixing belt which enables it to be adapted to different seat widths.

S210 | Universal waterproof seat covering

AIRSTARS & SPOILERS

In respect of styles and materials used, the collection of GIVI screens is the largest on the market and takes into consideration all the current trends. The range includes screens and aerodynamic spoilers equipped with specific fitting kits for the most popular naked, road and sporty motorcycles.

The collection also provides solutions for tourer, sport-tourer and cruiser motorcycles with both universal and dedicated screens and windshields available.

Finally, there is the scooter world for which GIVI has long been renowned, windscreens are available for a large number of models from 50cc to the larger engine capacities.

In terms of our latest news, we draw attention to the Airstar screens for scooters complete with serigraphy at the base to provide a strong visual impact and there is the new entry Airflow, the windscreen with an adjustable upper spoiler, designed by the GIVI R&D Department, which is unrivalled in terms of versatility and protection.

S180T SHIELD+

Universal transparent spoiler that can be mounted to fairings / windscreens; the aluminium fitting kit allows both the height and angle to be adjusted. The customer needs to confirm the original fairing/windscreen is rigid enough to allow the mounting of the SHIELD +

S180T Universal transparent spoiler that can be mounted to fairings / windscreens; the aluminium fitting kit allows both the height and angle to be adjusted.

S180F SHIELD+

Universal smoked spoiler that can be mounted to fairings / windscreens; the aluminium fitting kit allows both the height and angle to be adjusted. The customer needs to confirm the original fairing/windscreen is rigid enough to allow the mounting of the SHIELD +

S180F Universal smoked spoiler that can be mounted to fairings / windscreens; the aluminium fitting kit allows both the height and angle to be adjusted.

Shield+ is made entirely of billed aluminium that is manufactured one piece at a time using numerical controlled milling, finished by hand then finally anodized. Due to its excellent weight-performance and high resistance to corrosion, this high quality raw material is also used in aeronautical engineering. The screen is 4mm thick and is made from polymeric material approved by TUV. Compared to glass, it is more transparent and is half the weight of glass.

- Fitting is both simple and safe. In fact, installation does not require any modification of the existing windshield.
- Shield+ will fit onto any form of motorcycle / scooter windshield and lock keys are included as standard.
- The sleeves are made of a technical material that does not damage the existing windshield and guarantees optimum grip, even at high speed, making the shield+ reliable protection to deflect airflow.

COLLECTION

The appeal of "naked" motorcycles continues to interest a great many riders and it is for these motorcyclists that GIVI has created and produced a range of universal screens with a simple yet elegant design that ensures an excellent level of protection without spoiling the lines of the motorcycle. The fitting, with either 2 or 4 fixing points, is both quick and easy thanks to the stainless steel bars with clamps that are adjustable to the brackets. The models available meet the needs of even the most demanding of motorcyclists.

UNIVERSAL SCREENS

140A Universal transparent screen
35 x 41 cm (H x W)

140S Universal smoked screen
35 x 41 cm (H x W)

Universal transparent screen

To mount this screen, it is necessary to combine it with the appropriate fitting kit (AL_ _ _A), specific to individual motorcycles.

100AL Grey anodised aluminium
universal screen Race Cafe,
for naked motorcycles
20,5 x 26,5 cm (H x W)

100ALB Black anodised aluminium
universal screen Race Cafe,
for naked motorcycles
20,5 x 26,5 cm (H x W)

A800N Smoked universal screen with
finished fiberglass fairing
to be combined with the
specific fitting kit

A universal screen for naked motorcycles with a classic / modern style that perfectly reproduces the "café racer" look for which it was specifically designed. To embrace this philosophy, the screen has been made entirely of aluminium that has been finely brushed and then anodised and with a thickness of 2mm to withstand weathering. Essential, lightweight and technical there are no plastic components and it features either a gold or silver anodised aluminium riveted GIVI label, depending on the colour selected.

To mount this screen, it is necessary to combine it with the appropriate fitting kit (AL_ _ _A), specific to individual motorcycles.

To mount this screen, it is necessary to combine it with the appropriate fitting kit (AL_ _ _A) specific to individual motorcycles.

A660 Universal screen with 2 point
handlebar, smoked

handlebar, smoked
37,7 x 44 cm (H x W)
complete with specific fitting kit

A604 Universal screen with 2 point handlebar, smoked 37,9 x 44,5 cm (H x W) complete with specific fitting kit

A34+ D45 Universal screen with 4 point handlebar, smoked 49 x 50 cm (H x W)

A31+ D45 Universal screen with 4 point handlebar, smoked 50 x 61,5 cm (H x W)

AF49 Universal sliding windscreen, with 4 point handlebar Maximum height 53 cm (12 cm of extension) width 52 cm complete with specific fitting kit D45 / to be mounted instead of the original screen

D40 Fitting kit for universal screen A660 - A601 - A602 - A603 - A604

Z278 Universal adapter to fit a 2/4-fixing-points screen on motorcycle equipped with non-tubular handlebars

Z1997R Replacement sliding screen for Airflow

Z1694R Inner and external brackets for D40

COLLECTION

The universal GIVI cockpits represent an excellent example of the great attention that GIVI draws to the stylish design and to the quality level of its products.

Each version is characterised by its unique style and by the capacity to perfectly adapt to the line of the front chassis. A GIVI cockpit can be light and less intrusive or can individualise the distinguishing characteristics of a sportsbike.

Each version is made with a painted lower section in specific colours, fitted to a plexiglass screen. The functionality of these items is guaranteed by the use of universal fitting kits that make fitting extremely quick and easy.

UNIVERSAL FAIRINGS FOR NAKED BIKES

A201 Universal screen, smoked 29,5 x 32,5 cm complete with universal fitting kit

A210 Universal screen, smoked 36,5 x 35 cm complete with universal fitting kit

240A+ A240A Specific screen, smoked 33 x 36,5 cm

HP_ _ _ HAND PROTECTORS

Combined with a good pair of gloves, it is a good idea to entrust hand protection to a pair of hand protectors, to increase comfort on motorcycle trips.

Made of injection molded technopolymer for a better aesthetic result.
Photo-engraved GIVI logo.

Please refer to the section “specific equipment for bikes and scooters” to verify the compatibility of the specific article for your motorcycle.

EH_ _ _ EXTENSION FOR ORIGINAL HAND PROTECTORS

The hand protector extensions are an accessory that can potentially make the hand protectors provided as standard on many motorcycles, more protective.

Made of smoked plexiglass, these hand protector extensions develop upwards to create a “dome” that acts as an actual barrier to protect your hands from cold wind, rain and any shocks.

Please refer to the section “specific equipment for bikes and scooters” to verify the compatibility of the specific article for your motorcycle.

MECHANICAL PART PROTECTION

ENGINE GUARDS

Conceived with the aim to provide lateral protection of the engine, not only on trail motorcycles, but also naked and custom motorcycles as well as unfaired and semi-faired models. Should a motorcycle fall whilst located on its stand and it is equipped with an engine guard, the damage sustained by the engine would be greatly reduced. The wide range of engine guards developed and produced by GIVI includes specific solutions for a wide variety of motorcycle models.

For custom motorcycles, engine guards are available in a chromed version.

The characteristics of the materials used offer excellent performance, guaranteed by GIVI expertise

OIL CARTER PROTECTORS

Specifically designed based on individual motorcycle models, the oil carter protector makes the image of the maxi-Enduro even more "off road". It protects the oil carter from impact resulting from rocks, bumps and holes whilst "off road" and also on less challenging roads.

ENGINE GUARDS

The wide range of engine guards developed and produced by GIVI includes specific solutions for a wide variety of motorcycle models. For custom motorcycles, engine guards are available in a chromed version. The characteristics of the materials used offer excellent performance, guaranteed by GIVI expertise.

Material: steel or stainless steel. Finished in matt black or stainless steel depending on the different motorcycle models

PLEASE CHECK THE "SPECIFIC EQUIPMENT FOR BIKES AND SCOOTERS" TO FIND THE SPECIFIC ACCESSORIES FOR YOUR BIKE

OIL CARTER PROTECTORS

Specifically designed based on individual motorcycle models, the oil carter protector makes the image of the maxi-Enduro even more "off road". It protects the oil carter from impact resulting from rocks, bumps and holes whilst "off road" and also on less challenging roads.

BACKRESTS

GIVI aims to not only satisfy the needs of the rider, but also those of the passenger. We produce a wide range of backrests, made from foam polyurethane, which helps to create a more comfortable ride for those who sit over the “rear wheel”. The mounting phase is totally free or can be combined with a top case, depending on the vehicle. Holder material: metal. Backrest material: Polyurethane foam.

PLEASE CHECK THE “SPECIFIC EQUIPMENT FOR BIKES AND SCOOTERS” TO FIND THE SPECIFIC ACCESSORIES FOR YOUR BIKE

STAND EXTENSIONS

The purpose of the range of GIVI Base Extensions is to extend the surface area of the side stand, reducing the risk of a motorbike falling when it is parked on uneven surfaces such as; mud, sand, grass or asphalt during extremely high temperatures. Produced in anodized, milled and satinised aluminium with the high support made of satinised 316L stainless steel and designed with a hard technical aspect, the stand extension integrates perfectly with your motorbike.

GENERAL CONDITIONS OF SALE

Definitions and Interpretation

(a) For the purpose of these General Conditions of Sale, the following words and terms shall have the meaning set forth below:

- "Supplier" means GIVI S.P.A., having its registered office in Flero (BS), Via Ungaretti n. 48;
- "Products" means the goods and/or services supplied by GIVI S.P.A. and covered by these General Conditions of Sale;
- "Trademark[s]" means "GIVI" trademarks and other trademarks of which the Supplier is the owner in respect of the Products;
- "Distributor[s]" means any natural or legal person purchasing the Products for the purpose of their distribution, in accordance with these General Conditions of Sale;
- "Price List" means the official price list containing the Products' prices applied by the Supplier to the Distributor, in force at the time of the order proposal;
- "Territory" means the territory where the Distributor is authorized to sell the Products;
- "Agreement" means any agreement entered into by and between the Supplier and the Distributor in accordance with these General Conditions of Sale.

(b) These General Conditions of Sale shall govern the supply of the Products represented in the Price List and they shall be valid for any sale arrangements carried out through the Supplier's e-commerce platform. Use of the e-commerce platform (i.e. "GIVI Web-Order") shall be allowed exclusively to the Distributors expressly authorized by the Supplier and provided with the required password and credentials.

(c) It will not be possible to proceed to an order reservation if only one single provision of the present General Conditions of Sale will not be accepted.

(d) The following terms and conditions are deemed to be accepted and binding for the Distributor even when the Distributor submits his order proposal through a means different from the "GIVI Web-Order" system and they will be valid also when the contractual proposal has been submitted to the Supplier by the Distributor's local agent on his behalf. In such case the local agent will be authorized to submit the orders on the Distributor's behalf, after the Distributor's first acceptance of these General Conditions of Sale.

1. SCOPE

1.1 These General Conditions of Sale shall apply to any supply of the Products carried out by the Supplier.

1.2 These terms of business shall apply exclusively to any Agreement entered into by and between the Supplier and the Distributor; any Distributor's conditions that conflict with or differ from these terms of business will not be recognized unless the Supplier has specifically agreed to this in writing.

1.3 These General Conditions of Sale and the Agreement shall be irrevocable for the Distributor.

1.4 In the absence of a written complaint of non-conformity by the Distributor within 30 (thirty) days from the receipt of the Products, the deliveries dispatched by the Supplier are deemed to be fully accepted, despite differing from what indicated in the order confirmation with regard to the Products' types, quantity or commercial conditions.

2. ORDERS AND SPECIFICATIONS

2.1 The range shown on the Supplier's web-site, "Web-Order" system and online or printed catalogue does not represent a legally binding offer but a non-binding online or printed catalogue.

2.2 The Distributor will order the Products required by accessing the reserved "Web-Order" area or via fax/e-mail. Submission of an order proposal by the Distributor implies the consent to receive the Supplier's communications described below which are exclusively aimed to the conclusion and the performance of the Agreement. No order submitted by the Distributor shall be deemed to be accepted by the Supplier unless and until confirmed in writing by the Supplier. Once the order proposal has been received, the Supplier will transmit his order confirmation to the Distributor at the e-mail address indicated by the Distributor that will be then assigned an Order Protocol Number to be used for any subsequent communication with the Supplier. Confirmed orders will be accessible through the Distributor's personal "Web-Order" area.

2.3 Any purchase order placed by the Distributor shall be intended as full and complete acceptance of the present General Conditions of Sale that the Distributor declares to have read and understood.

2.4 The Supplier reserves the right to refuse an order fully or partially according to stock availability, production capability and delivery date required by the Distributor.

3. PRICES, INVOICE, PAYMENT

3.1 Prices to be paid by the Distributor to the Supplier for the Products are those resulting from the Price List, as established by the Supplier from time to time. All prices are in Euro (VAT is not due, therefore not included) and can be subject to modification with a 15-day prior notice from the Supplier. All prices are intended for Products delivered EX-WORKS "Incoterms® ICC 2010" (from our warehouse in Barbariga, Italy).

3.2 Invoices must be paid within their expiry date. In case one or more invoices are expired and remain unpaid, or the maximum exposure limit is reached or exceeded, the Supplier shall be entitled to suspend any further deliveries to the Distributor until the overdue payment is received in full. Payments received need to be confirmed by the Supplier's Bank, when credited on the Supplier's bank account.

3.3 In case of delayed payment or non-payment, without prejudice to any other right or remedy available, the Supplier shall be entitled to apply default interests on arrears as established by "Decreto Legislativo n. 231/2002" (Legislative Decree n. 231/2002) and expenses at the bank rates in force from time to time.

4. PACKAGING AND SHIPMENT

4.1 Transport is entrusted to third parties if not specified to the contrary from time to time. Shipments are not prepared on pallets unless specifically requested by the Distributor. The cost of the pallets, if used, is charged by the Supplier on the invoice to the Distributor. In any case, shipments will be at the risk of the Distributor, which will also incur all the relevant costs.

4.2 Transport obligations, costs and risks are transferred from the Supplier to the Distributor when the Products are at the disposal of the Distributor at the Supplier's warehouse.

5. DELIVERY OF THE PRODUCTS

5.1 The Distributor and the Supplier agree and acknowledge that the place of delivery of the Products is at the Supplier's logistic centre in Barbariga (BS), Italy.

5.2 No claim for missing or damaged Products can be accepted by the Supplier past 8 (eight) days after the delivery of the Products.

5.3 Time of delivery is not of the essence. The Supplier will do every effort to meet the delivery time requested by the Distributor in the order, provided that in no case the Supplier shall be liable for any delay that may occur in fulfilling accepted orders, except for its gross negligence or wilful misconduct.

6. CUSTOM DUTIES AND LICENSES

6.1 The Distributor will be liable for import custom duties, if applicable in his Country, and for any other amounts payable in connection with importation and delivery of the Products.

6.2 The Distributor shall be responsible for obtaining any necessary import licenses, permits or authorization necessary for importation and delivery of the Products.

7. ORDER CANCELLATION

7.1 No order which has been accepted and confirmed by the Supplier may be cancelled by the Distributor except with the agreement in writing of the Supplier and on terms that the request for order cancellation shall be submitted by the Distributor before the start of the shipment preparation. In case the order is cancelled after the shipment preparation has started, the Supplier will be entitled to invoice to the Distributor the costs incurred by the Supplier.

8. PROPERTY AND CUSTODY

8.1 Notwithstanding delivery and the passing of risk in the Products, the property in the Products shall not pass to the Distributor until the Supplier has received payment in full of the price of the Products and the Distributor has fully performed all of the terms and conditions hereof.

8.2 Before transfer of ownership, the Distributor will only be entitled to these Products with the prior written approval of the Supplier. If a third party seizes the Products, particularly if the Products are impounded, the Distributor must inform the Supplier immediately in writing and also point out to the third party immediately that the Supplier has proprietary rights.

8.3 Until payment in full of the price, the Distributor shall be liable for the risks related to the custody and preservation of the purchased Products.

9. RETURNS

9.1 Products may be returned to the Supplier in case of shipping irregularities, defects at the source or caused by transport, defects falling within the warranty terms. Returns shall be previously authorized by the Supplier's competent office. No Products will be accepted for credit when returned without the written permission of the Supplier. No Products will be accepted for credit after 1 (one) year from the date of shipment.

9.2 Should the written permission be given the Products must be returned to the Supplier at the Distributor's costs, save where otherwise agreed. The authorization number released by the Supplier's competent office must be shown in the transport document together with the number of the original invoice concerning the item being returned.

9.3 The Supplier undertakes to withdraw or replace: a) Products erroneously delivered to the Distributor under the direct responsibility of its personnel assigned to shipments; b) original defective items/components, or items/components damaged by transport, provided that the defect has been denounced within 15 (fifteen) days from the receipt of the Products; c) defective items/components falling within the warranty terms.

9.4 Any returns not complying with the abovementioned conditions will be treated as a repair bill with application of the relative fares.

10. WARRANTIES AND LIABILITY

10.1 The warranty period is 24 (twenty-four) months and begins when the Products are handed over to the final user.

Defects in the Products will be corrected by the Supplier after being informed of this by the Distributor within this warranty period, provided that the defective Products have been correctly used in a way compatible with the instructions contained in the Instruction Manual. The Supplier will decide whether to replace or repair the Products and inform the Distributor accordingly. In case of breakage falling within the warranty terms, only the component considered to be defective will be replaced, not the entire item. The Supplier shall have no further liability towards the Distributor.

10.2 Every claim must be notified by the Distributor to the Supplier using the Warranty Claim Form provided by the Supplier, with description of the fault and pictures showing and proving the claimed defect.

10.3 The Supplier shall be under no liability in respect of any defect arising from fair wear and tear, willful damage, negligence, abnormal working conditions, failure to follow the Supplier's instructions, whether oral or in writing, misuse or alteration of the Products without the Supplier's approval.

10.4 If the complaint is unfounded the Supplier reserves the right to claim reimbursement of the costs incurred from the Distributor, if any.

10.5 The Supplier shall be under no liability under the above warranty (or any other warranty, condition or guarantee) if the total price for the Products has not been paid by the due date for payment.

10.6 Except in respect of death or personal injury caused by the Supplier's negligence, the Supplier shall not be liable to the Distributor by reason of any representation, unless fraudulent, or any implied warranty, condition or other term, or under the express terms of the present General Conditions of Sale, for any indirect, special or consequential loss or damage, whether for loss of profit or otherwise, costs, expenses or other claims for compensation whatsoever (whether caused by the negligence of the Supplier, its employees or agents or otherwise) which arise out of or in connection with the supply of the Products or their use or resale by the Distributor, and the entire liability of the Supplier under or in connection with the sale of the Products shall not exceed the price of the Products, except as expressly provided in these General Conditions of Sale.

10.7 The Supplier shall not be liable to the Distributor or be deemed to be in breach of these General Conditions of Sale by reason of any delay in performing, or any failure to perform, any of the Supplier's obligations in relation to the Products, if the delay or failure was due to any cause beyond the Supplier's reasonable control.

11. DISTRIBUTOR'S UNDERTAKINGS

11.1 The Distributor agrees and undertakes to sell the Products in his own name and on his own account. The Distributor shall have no authority to conclude agreements in the Supplier's behalf or to bind the Supplier towards third parties in any way. In the performance of his activities, the Distributor undertakes to act diligently, by maintaining an appropriate conduct in order to ensure compliance with the obligations arising out of these General Conditions of Sale and to preserve the quality and reputation of the Products.

11.2 The Distributor undertakes to sell the Products only within the Territory. In particular, the Distributor undertakes not to actively sell the Products in territories reserved by the Supplier to himself or to other distributors on an exclusive basis, however it being understood that the Distributor shall have the right to fulfil orders it has not solicited, even if they come from customers residing outside the Territory. In this regard, the Distributor declares to be aware that the Products subject to these General Conditions of Sale, as included in the Price List, are designed in accordance with the legislation in force in the Territory: it follows that the possible entry of the Products in markets outside the Territory may be in contrast with the laws of these Countries. In case of non-compliance with the commitments provided by this article, the Distributor assumes sole and full liability for any resulting damage and/or claim for compensation, thus totally declining the Supplier from any related responsibility.

11.3 The Distributor is free to determine the resale price of the Products, without prejudice to the Supplier's faculty to recommend a non-binding price. The Distributor agrees to use his best endeavors to promote and sell the Products, also via e-commerce platforms, in line with the Supplier's qualitative standards, in a way capable of preserving the value of the Trademarks and the technical features, prestige and reputation of the Products.

12. USE OF TRADEMARKS, CONFIDENTIALITY, PROMOTIONAL ACTIVITIES

12.1 The Distributor acknowledges that the Trademarks and other related rights are the sole property of the Supplier. Therefore, the Distributor acknowledges and accepts that only the Supplier is entitled to apply for registration of the Trademarks or of the correspondent trade names, and undertakes not to register in the future any trademark or trade name which may be considered similar to any of the Supplier's Trademarks or trade names to the extent that it may create confusion among the customers.

12.2 The Distributor undertakes to immediately bring to the notice of the Supplier any improper or wrongful use of the Trademarks or infringement of the Supplier's industrial and/or intellectual property rights, as well as any act of unfair competition.

12.3 The Distributor undertakes to observe total confidentiality and to abstain from using and/or divulging, also after termination of the Agreement, any commercial secrets and information of a confidential nature concerning the Supplier and the Products, exchanged during the contractual relationship between the Supplier and the Distributor.

12.4 The Distributor shall submit to the Supplier all promotional-advertising initiatives regarding the Products for his prior written approval. In any case, any advertising or promotional operations – including attendance at fairs and exhibitions – must be submitted to the Supplier in advance to assess their compatibility with the Supplier's sale and image policy.

13. TERMINATION OF THE AGREEMENT

13.1 The Supplier may terminate the Agreement with immediate effect by written notice to the Distributor, in the event of violation of any of the following provisions: 3.3; 8; 10; 11.2; 12; 16.2.

13.2 Any relaxation, leniency or indulgence which the Supplier may extend to the Distributor shall not in any way constitute a waiver of the Supplier's rights in terms hereof.

14. DATA PROTECTION

14.1 If it has not been agreed to the contrary, the Supplier will only use the Distributor's data in order to carry out the Agreement. The Distributor's permission is required to use this information for market and opinion research and for advertising.

15. TERM

15.1 These General Conditions of Sale shall be effective as of the date of signature by the Distributor and they will apply to any subsequent transactions between the Supplier and the Distributor.

16. MISCELLANEOUS

16.1 Changes and amendments to these General Conditions of Sale must be in writing to be effective. There are no verbal secondary agreements.

16.2 If it has not been agreed to the contrary, the Distributor may not transfer rights and obligations derived from the Agreement to a third party without the Supplier's prior written consent.

16.3 If any provision of these General Conditions of Sale is or becomes invalid or unenforceable in whole or in part, the other provisions and the remainder of the provision in question shall not be affected. The contractual partners will agree to replace the invalid provision with a valid one that best corresponds to the economic aims of the contractual parties.

16.4 The present General Conditions of Sale and the Agreement are governed by the laws of Italy.

16.5 The competent courts of the place where the Supplier has his registered office (Brescia, Italy) shall have exclusive jurisdiction in any action arising out of or in connection with these General Conditions of Sale and with the Agreement. However, as an exception to the principle here above, the Supplier is in any case entitled to bring his action before the competent court of the place where the Distributor has his registered office. Should the Distributor have his seat out of the EU, all disputes arising out of or in connection with the present General Conditions of Sale shall be finally settled under the Rules of Arbitration of the Chamber of Arbitration of Milan by one or more arbitrators appointed in accordance with the said Rules.

FINAL PROVISIONS

(a) The Supplier is under no responsibility in respect of completeness, correctness and updating of the Price List and the catalogues;

(b) The Supplier reserves the right to modify, add or remove any of the represented Products without any prior notice;

(c) Notwithstanding the Supplier's performance of tests and safety controls over the Products, the Supplier cannot guarantee compliance of the Products with the prescriptions or installation limits actually or potentially provided by the laws of certain Countries. It shall therefore be in the Distributor's exclusive liability to verify the conformity of the Products and of their installations to the laws of his Country or any other Country, thereby declining the Supplier from any related responsibility.

(d) Installation of our specific articles for motor vehicles is guaranteed only if the vehicle is not provided with after-market accessories or original optional accessories of the production company.
